MAJOR CLIENTS

30 yrs

IN THE INDUSTRY

BUILT ON TRUST. DRIVEN BY SERVICE.

An authorised distributor of industrial products in Raigarh, Chhattisgarh, started on a small scale in 1996 by **Mr. Manoj Agrawal**.

Manoj Agrawal.

The first breakthrough was the L&T Switchgear dealership for Raigarh. That relationship is now in its 25th year, under the Lauritz Knudsen name. Four more principals followed, so our customers reach five established brands through a single, accountable distributor.

Client satisfaction has been our most important motto since inception. We provide technical support, professional service, and guaranteed accuracy on every order.

RECOGNITION

Chairman Award for Dealer of the Year

D&H Sécheron Electrodes Pvt. Ltd.

LEADERSHIP

MA

Manoj Agrawal

FOUNDER & PARTNER

Founded the firm in 1996 and built it into a trusted supply partner for some of the largest plants in power, steel, cement, and mining.

HOW WE OPERATE

STOCK, STORAGE
AND PEOPLE.

We hold stock across three locations in Raigarh and run our own marketing, commercial, and dispatch teams. Orders are confirmed and moved from here, not from a principal's warehouse three states away.

Fast-moving lines sit on the shelf at the shop for counter dispatch. Bulk and heavy material is held in the godown and in our bay inside the SM shed, where EOT cranes handle the lifting.

1,200 sqft
OWNED PREMISES

Our own shop in the heart of the city, holding stock for immediate counter dispatch.

Adjoining
GODOWN

A second godown next to the main shop, carrying bulk and slower-moving lines.

Crane Bay
INSIDE THE SM
SHED

A dedicated Gomati store inside the covered shed, served by 10-ton EOT cranes for heavy material.

HOW AN ORDER MOVES

01

You Send the Requirement

Part reference, rating, quantity, and delivery date. A drawing or sample is welcome.

02

We Confirm the Product

We check grade and specification with the principal, then quote in writing.

03

We Dispatch

Stocked lines move from Raigarh. Indent items are followed up with the works until delivery.

WHY APPOINT GOMATI ENTERPRISES

01

A Proven Channel Partner

Five principals held concurrently, one of them for over 25 unbroken years, with awards received from them over the years.

02

Direct Access to the Plants

Established supply relationships with 18 major steel, power, and mining companies in the region.

03

Stock Held Locally

Owned premises and godown space, plus a dedicated store with crane access, so material is on hand rather than on order.

04

An Engineering Arm

SM Engineering Industries gives your products on-ground service, fabrication, and reclamation support under the same ownership.

WRITE TO US

We reply to every enquiry, and both partners are reachable on the number above.
